Adaptable Workspace for Every Office

Versatile and durable, Currency® offers a range of cost-effective, laminate workstation solutions for all types of offices. With a broad statement of line, it provides workers with choice and control while bringing the natural appearance and warmth of wood into the workplace.

IM#: 18-0105652

Personalizing Space and Customizing Storage

Workwall offers the ability to personalize offices by allowing workers to define individual and collaborative workspaces, and create privacy without boundaries. With open and closed storage options, versatile styling, and quality construction, Currency adapts to a variety of needs and complements both traditional and modern work environments.

Elective Elements
desk systems

Steelcase

Highly Coveted. Highly Versatile.

Refined, sophisticated design. Rich, extensive material options. Flexible, purposeful applications. Elective Elements® seamlessly blends style, craftsmanship and performance to support today's diverse and demanding workplaces.

IM#: 14-0003189 | SM: ELECTIVE ELEMENTS (STORM WENGE LAMINATE, BRONZE LEG, TRUFFLE BACK PAINTED GLASS), SIENTO CHAIR (ELMOSOFT LEATHER PARCHMENT), DASH LIGHT, BINDU CHAIR (GAMUT SPRUCE)

IM#: 14-0003185

IM#: 16-0015446 | SM: ELECTIVE ELEMENTS (EUROPEAN WALNUT WITH DARK BRONZE LEG), V.I.A., MEDIA:SCAPE, MASSAUD CONFERENCE CHAIR (DIVINA MELANGE 621), BINDU CHAIR (REMIX 143), SOTO STORAGE BOXES

Supporting Today's Leaders

The demands on leaders have changed. They're highly mobile and spend more time collaborating with widely distributed teams. Elective Elements, with natural materials and a refined aesthetic, provides a sense of refuge for today's leaders, allowing them to think creatively, interact productively and lead effectively in environments that reflect their brands and cultures.

IM#: 16-0015449 | SM: ELECTIVE ELEMENTS (ASH WENGE LAMINATE AND ARCTIC WHITE LAMINATE WITH PLATINUM LEG), V.I.A., MEDIA:SCAPE, GESTURE CHAIR (HEATHER MIDNIGHT), LESS THAN FIVE SIDE CHAIR (LIGHT FADE MATTE), SOTO STORAGE BOXES, TOGETHER BENCH (HEATHER MIDNIGHT), SW_1 TABLE (ABSOLUTE CLEAR FROSTED GLASS WITH POLISHED ALUMINUM BASE)

IM#: 16-0015444

Private Yet Accessible

Focused concentration one minute—impromptu meeting the next. Elective Elements elegantly balances the privacy, visibility and accessibility leaders need to work effectively and efficiently. Layered and open storage options are designed to keep both professional tools and personal items visible and easily accessible.

IM#: 16-0042038 | SM: ELECTIVE ELEMENTS (DESERT OAK WITH DARK BRONZE LEG AND WINTER BACK PAINTED GLASS), GESTURE CHAIR (REMIX PEBBLE), SW_1 LOUNGE (DESIGNTEX ROTHESAY MARBLE), MEDIA:SCAPE, SOTO LIGHT

Versatility Without Compromise

With limitless configurations, Elective Elements creates a range of applications with a similar visual language—from smaller spaces to larger, more open settings. Featuring wall-mounted, panel-supported and freestanding components, Elective Elements gives leaders the ability to effectively manage the changing needs of their teams while maintaining a refined aesthetic.

Integrated technology provides easy access to power and data, while storage and panel heights can be used to establish boundaries for privacy or deeper team interaction and integration.

IM#: 14-0001713

IM#: 16-0015443 | SM: ELECTIVE ELEMENTS (ESPRESSO OAK, ARCTIC WHITE LAMINATE WITH PLATINUM LEG), V.I.A., THINK CHAIR (REMIX 762), LED PERSONAL TASK LIGHT

Mackinac

Steelcase

Designed for movement and transition.

Mackinac (*pronounced MAK-uh-naw*) re-envision the workplace and helps people move, think and feel better by supporting the many different ways leaders and their teams work throughout the day—all in a compact footprint. With Mackinac, teams seamlessly flow between workmodes, saving time and maximizing productivity.

Work the Best Way Possible

With a clean, elevated aesthetic and a wide range of configurations, Mackinac empowers different workstyles while enhancing any space. Mackinac supports power, a range of technology, and zones for focus, collaboration and respite. Its thoughtful design provides clear distinction between spaces so leaders and their teams can work in the best way possible for the task at hand.

Worksurfaces

Cantilevered worksurfaces are available in fixed-height seated and standing, and height-adjustable options to support a variety of work postures, while collaborative surfaces are available to support teamwork.

The cantilevered worksurface is supported by a column that attaches to the foundation—there are no posts or leg supports for users to maneuver around.

Simple Touch controller allows users to effortlessly adjust the worksurface up or down within a range of 27½"H–44½"H.

Permanent power receptacles are located under the worksurface and are available with optional USB type A ports

Worksurface power receptacles are available with optional USB type A and type C ports.

Foundation

The foundation helps define spatial boundaries while supporting the worksurface cantilever.

Foundations are available with drawers for storage of personal items or important documents.

The top skin of the foundation lifts off for easy access to power and cabling routed inside the foundation.

Tower

The tower can be customized with full-length fabric shrouds, half-length fabric shrouds, open shelves or a combination to provide varying levels of privacy.

Towers are available with one or two fixed shelves and provide users an opportunity to customize their space and display personal items.

Technology

To accommodate teleconferencing and boost collaboration, towers can support a single monitor used with media:scape® Virtual PUCK. The Virtual PUCK receiver can be conveniently stored inside the foundation.

media:scape mini can be placed directly on top of a collaborative surface as an alternative solution.

Payback™
casegoods

Steelcase

IM#: 13-0005977 | Payback (Clear Maple), Amia®, Crew™ and Sawyer™ (Charcoal).

PROFICIENT IN MANY AREAS.

Payback is the all-in-one solution that works hard in any professional setting. Furnish a meeting room, private office or entire workplace to fit your needs while maintaining consistency throughout. With thoughtful features and timeless design, Payback offers an unmatched return on investment.

IM#: 13-0005986 1 Payback (Arctic White and Clear Oak); Reply® (Meadow).

BIG RETURNS FOR SMALL BUSINESSES.

Payback works hard in a variety of environments, including open work spaces and reception areas. Ideal for small businesses, Payback's broad selection of assembled and modular components can be configured and reconfigured all while maintaining a small footprint.

DEFINING TODAY'S PRIVATE OFFICE.

Payback offers a substantial combination of modular components and integrated power for today's office. The vertical workwall provides open and closed storage options, freeing the top surface for work and collaboration.

ONE AESTHETIC FOR ALL SPACES.

From conference rooms to private offices, Payback is perfectly scaled to support a range of classic and executive spaces. Mix and match components to create a personalized yet consistent aesthetic for group collaboration or customer interaction.

EXECUTIVE PAYBACK

Thicker work surface edge available in flat edge band or optional ribbed profile.

IM#: 13-0005573 | Payback (Acacia); FlexFrame (Acacia, Silver Alloy, Ice White); OVI (Graphite).

FLEXIBLE IN EVERY SETTING.

Continue a consistent aesthetic throughout the workplace, from small private enclaves for focused, independent work to intelligent group workspaces. When paired with FlexFrame® workwall, Payback offers an integrated solution to support real-time collaboration and HD videoconferencing.

INTEGRATED POWER

Workers can plug digital devices in through Payback's integrated tabletop power and data outlets.

IM#: 13-0005982

CABLE MANAGEMENT

Power is easily accessed through the rectangular table base.

IM#: 13-0005981

IM#: 13-0005991

IM#: 13-0005990

LAYERED STORAGE

Payback supports real estate compression through layered storage options: mobile pedestals, freestanding storage and upper storage.

EFFICIENT STORAGE.

Open or closed, filed or piled, Payback offers a wide-range of storage options to keep information and personal belongings accessible and organized.

IM# 13-0005984 | Payback (Chocolate Walnut), Jenny™ (Mat), Desk™ (Customizable), Jenny Club® (Acacia Iron)

IM# 13-0005985

STORAGE DOORS

Doors available in both acrylic and laminate surfaces.

IM# 13-0005980

FLIP-UP POWER UNIT

Provides two power outlets at the worksurface.

IM#: 13-0004013

V.I.A.™
architectural solutions

Steelcase

What if the foundation of today's workplace was the vertical plane?

What if that vertical plane could not only divide space, but bring people together?

Be a conduit for communication?

A canvas for brands?

A place where private conversations could remain private?

What if that intelligent plane was designed for today, but with the vision of what's needed tomorrow?

That solution would be V.I.A.

Vertical. Intelligent. Architecture.

IM#: 19-0121759

VERTICAL. INTELLIGENT. ARCHITECTURE.

V.I.A. not only defines space, but redefines the role vertical real estate plays in today's workplace. V.I.A. augments human interaction by providing true acoustical privacy and hosting technology. It provides a sense of permanence with the speed and design flexibility of a relocatable wall, allowing the creation of a range of applications.

THE CHALLENGE OF TODAY'S WORKPLACE.

As the workplace changes and evolves new tensions develop about how and where we work.

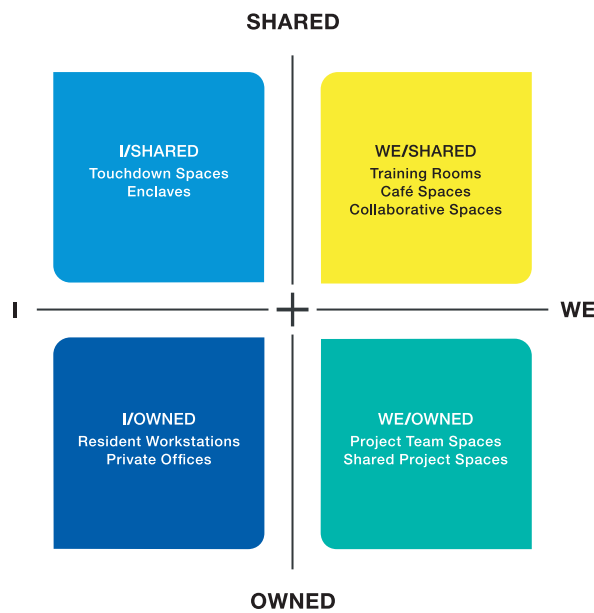

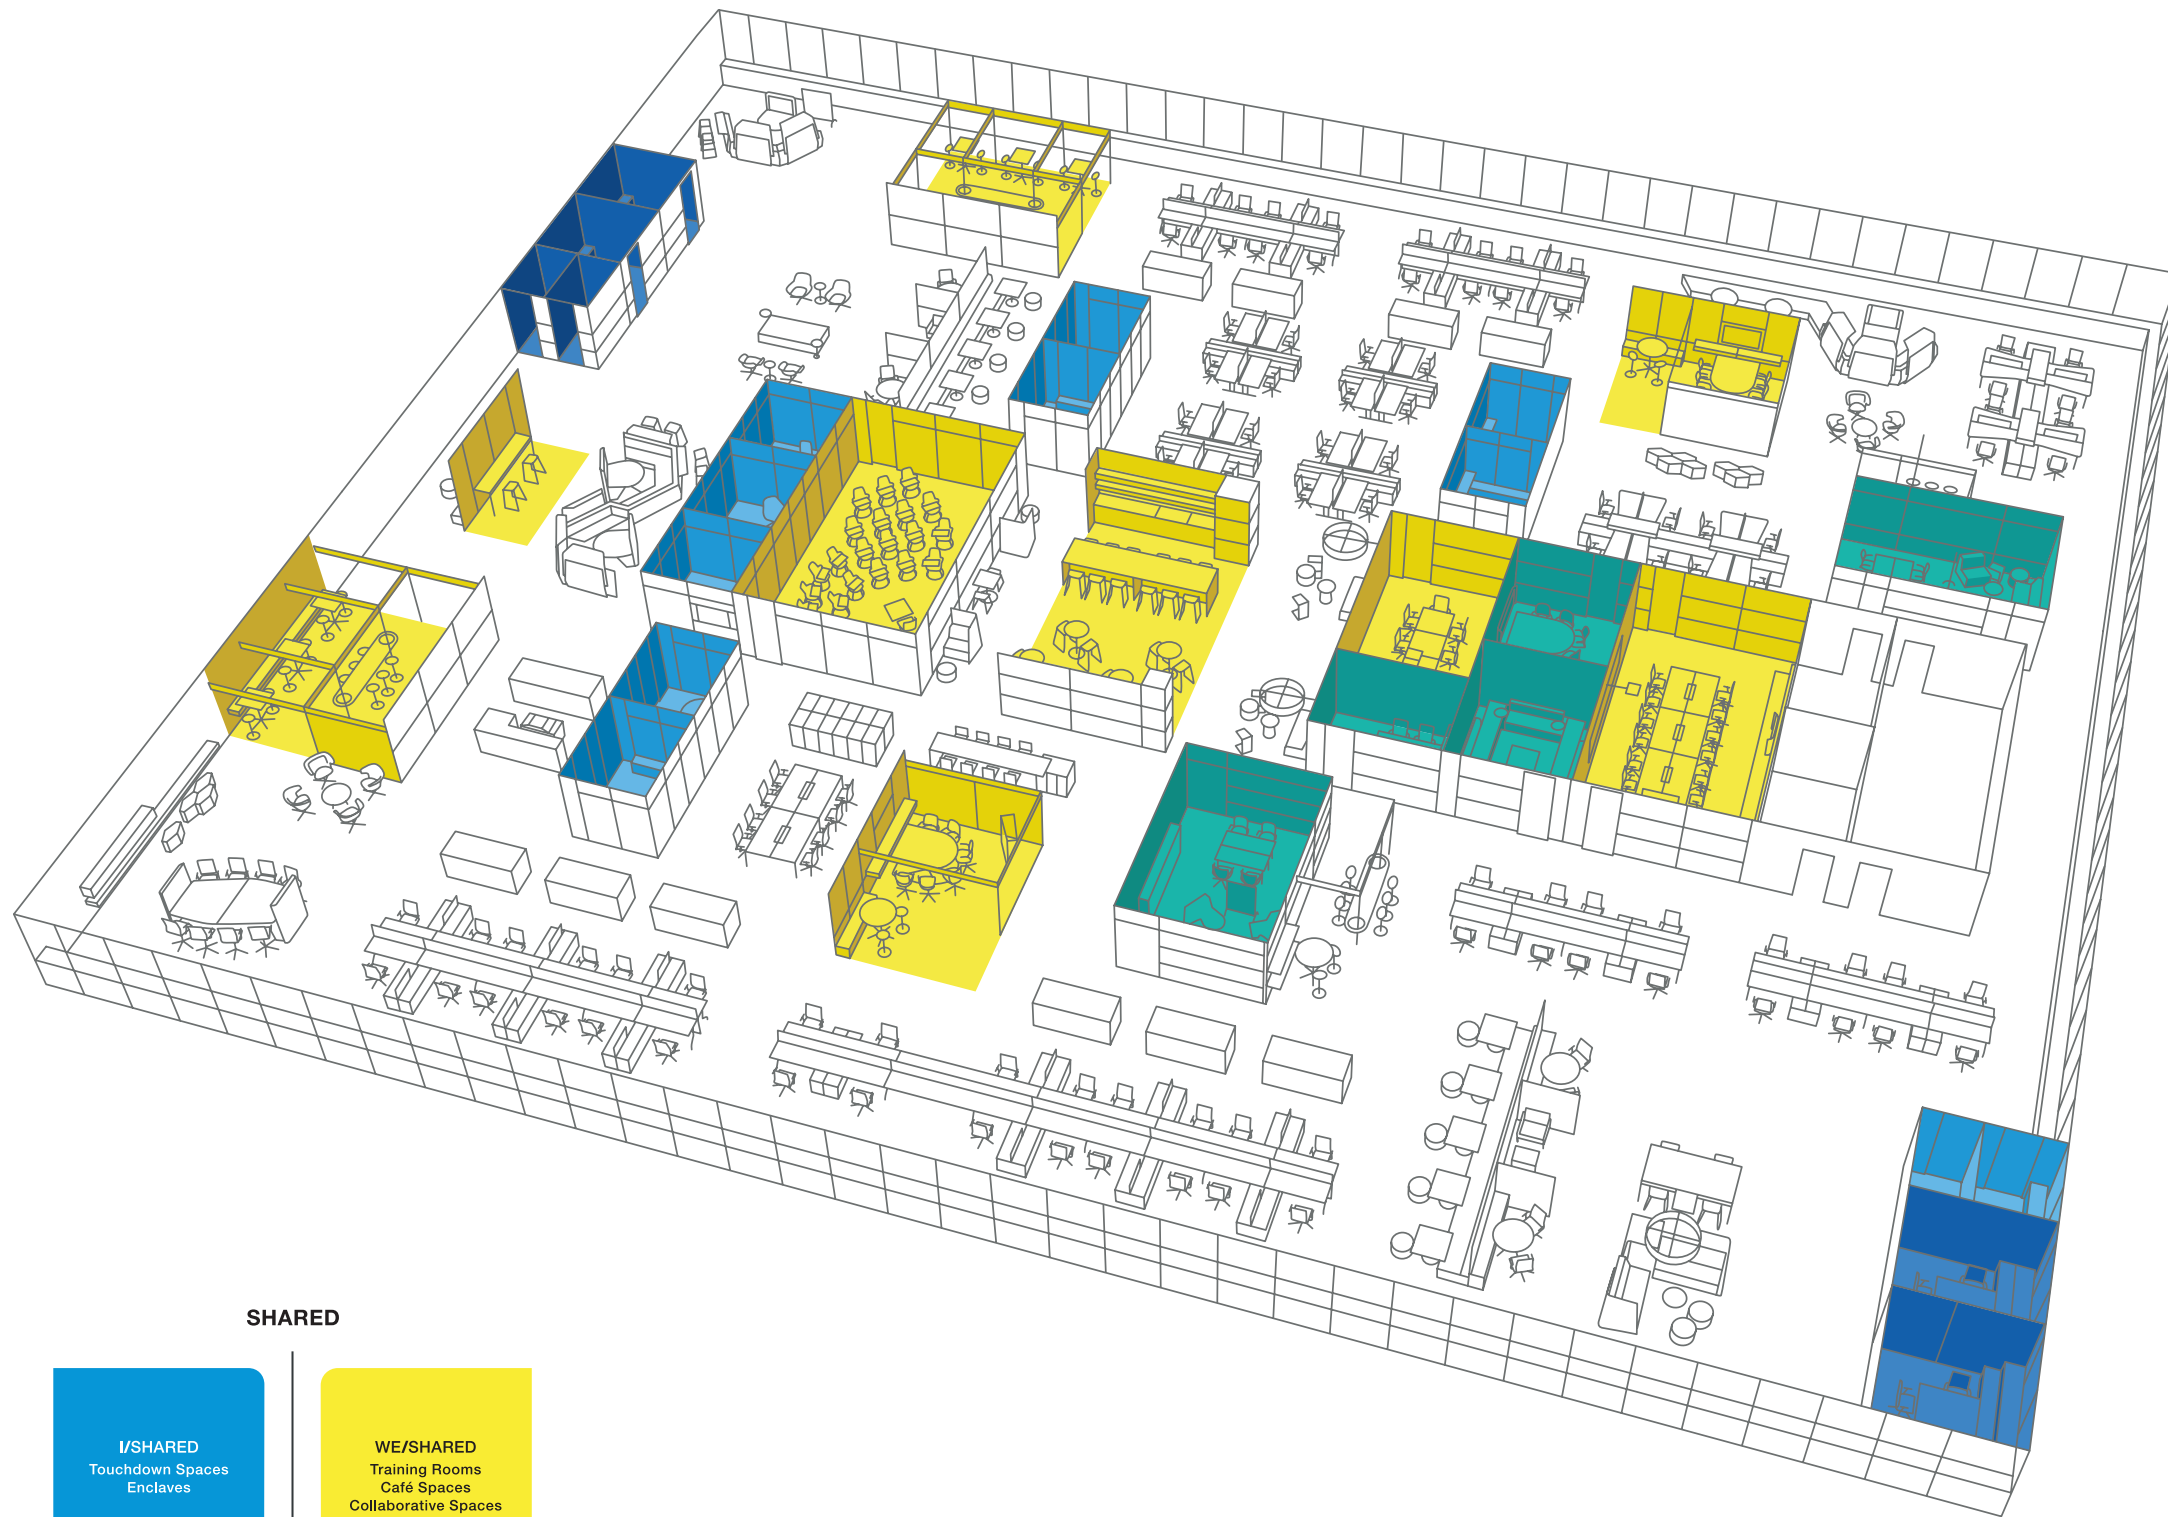

The more mobile our devices allow us to be, the more we need fixed places to come together to connect and collaborate.

The smaller our technologies, the more we need scale to share and communicate effectively with others.

The more collaborative we become, the more we need time alone.

The more data we generate, the more we need places to help us make sense of it.

PALETTE OF PLACE.

V.I.A. creates an environment of interrelated settings that allow people to choose where to work – with the right amount of sensory stimulation, physical support and technology tools appropriate for the work they're doing at that time. Workplaces designed for an interconnected world offer the right blend of spaces and solutions to support the ways people work today... and tomorrow.

AUGMENT COLLABORATION.

Intelligent rooms keep distributed teams aligned and connected, leveraging both analog and digital information to foster collaboration. V.I.A. **elegantly hosts technology** to create portals between physical and virtual worlds. V.I.A. can provide true acoustical privacy for collaborative teams, as well as for workers in adjacent work spaces.

80%

80% of organizations feel that they need to collaborate more. *IBM 2010 HR Study*

IM#: 13-0004005

IM#: 13-0004013 | SM: V.I.A. (PLATINUM SEALS, ANODIZED ALUMINUM FRAME, CLEAR TEMPERED GLASS, MILK PAINT, FABRIC WRAPPED STEEL SKIN), COBI® STOOLS (ARCTIC WHITE AND WASABI), ROOMWIZARD®, SCAPESERIES™ (PLATINUM), ēno®

IM#: 13-0004013 | SM: V.I.A. (PLATINUM SEALS, ANODIZED ALUMINUM FRAME, CLEAR TEMPERED GLASS, MILK PAINT, FABRIC WRAPPED STEEL SKIN), COBI® STOOLS (ARCTIC WHITE AND WASABI), ROOMWIZARD®, SCAPESERIES™ (PLATINUM), ēno®

IM# 13-0004055

ēno WHITEBOARD

Integrated ēno® whiteboard and short throw projector enable teams to collaborate on digital content.

EMBEDDED MONITORS

Embedded monitors connect with a media:scape table to seamlessly share content. A camera shelf provides HDVC support to connect with remote participants.

AUGMENT PRIVACY.

Dynamic, collaborative team spaces can be adjacent to focused workspaces without creating noise disturbances. To support workers with **true acoustical privacy**, V.I.A. is engineered with a unique acoustical intelligence: all frames and skins are manufactured with full acoustical seals.

62%

62% of people who work in an office with other people, feel self-conscious about being overheard in a private conversation. *Harris Interactive Survey conducted on behalf of Steelcase*

88%

88% say it's important for the workplace to attract and engage. 45% say it's not happening. *Steelcase Workplace Satisfaction Survey*

AUGMENT BRAND.

V.I.A. easily becomes a canvas to **express brand and culture**, while providing informal space to people to connect as they arrive to a meeting or after the meeting adjourns. With V.I.A., the exterior of the wall can work as hard as the interior, allowing you to maximize the value of your vertical real estate, creating places for employees to meet, socialize, inform and be informed.

IM#: 13-0004033

IM#: 19- 0123713

FUTURE FOCUSED.

V.I.A. not only allows you to realize your design vision today, but its embedded intelligence provides a platform for the future. With V.I.A. it's easy to make small changes or large changes, blending a sense of permanence with flexibility for evolving business needs and future technologies.

Glass skins and solid skins are interchangeable within the same frame, creating the flexibility to easily switch from single-glazed glass to double-glazed glass or solid skins, as the needs of the space change.

Adding a monitor shroud skin easily converts a shared private office to a collaborative team space.

Frosted glass provides improved visual privacy for a team working in the space.

Two small spaces can easily convert into a large team space by removing the back wall. The space can also support collaboration with the addition of a monitor shroud and whiteboards.

ENGINEERED INTELLIGENCE.

V.I.A. is beautiful on the outside and intelligent on the inside. In fact, some of the most compelling things about V.I.A. are not even visible from the exterior.

ACOUSTICAL INTELLIGENCE

V.I.A.'s approach to acoustical privacy will set a new performance benchmark in the industry. High-performance solid skins and glass frames, integrated seals at all touchpoints within the product (and between the product and the building architecture) and doors with static and operable seals maximize acoustical privacy without limiting re-configuration and re-use. Glass frames can easily be switched from single glazing to double glazing for improved acoustic privacy.

SENSE OF PERMANENCE

V.I.A. delivers the stability and sense of permanence one would expect from fixed construction. This is achieved through a rigid, steel framework engineered to provide true structural support.

SUPERIOR FIT AND FINISH

V.I.A. is constructed of precisely manufactured components that are pre-assembled in the factory to enable efficient, precision on site installation. This level of precision drives the consistent visual detailing of the final installed product. The precision frame and mechanical skin attachment brackets are designed to properly align skins, minimizing time and reducing dependency on the installer's skill level.

SAFETY AND SECURITY

V.I.A. utilizes mechanical attachment brackets to attach the skins to the frames. These brackets provide positive visual feedback to installers to indicate when the skins are locked to the frame. Once locked in place, the skins are only removed by a special tool. It's a simple thing that has a big impact on safety and security.

DESIGN FREEDOM.

V.I.A. provides consistent and predictable visual detailing for a superior fit and finish. Whether you're creating spaces built on standard modules to maximize reconfiguration, or spaces that are unique, expressive and off a grid, you can easily realize your vision. V.I.A. is designed parametrically, in increments of $\frac{1}{32}$ ", eliminating dimensional specials.

V.I.A. is developed using the EnvisionIt methodology, which accelerates and links the design-build process. With EnvisionIt, you can:

Specify V.I.A. without the complexity of dimensional specials

Understand the visual and cost impact of design changes

Optimize inventory management and product reuse
