Wood Solutions

**Reimagining  
your  
Workplace**

We don't just live in nature.  
Nature lives in us.

Somewhere deep in our  
DNA, we know it's a place to  
get centered. To connect.

So we choose to work  
with it. Making the places  
we work more like the places  
we love to be.

## Mackinac

Mackinac (pronounced MAK-uh-naw) re-envision the workplace and helps people move, think and feel better by supporting the range of activities leaders and their teams do throughout the day. Microzones allow for seamless transitions between different modes of work - from focus to collaboration to rejuvenation - all within a compact footprint ideal for either the private office or open plan. Mackinac's cantilevered worksurface provides a beautiful and elegant aesthetic, while a wide breadth of material options allows you to make Mackinac all your own.
